Summer 2016

How is your summer going?

There has been a lot going on this summer at the Regina Flying Club. We have had fun, we have been busy, and we have been flying.

B-17 Flying Fortress a Huge Success

During the month of July we had the EAA B-17 Aluminum Overcast at the Regina Flying Club. This group of pilots based out of Minnesota were a great group of folks to work with and are obviously very proud of their aircraft. Thanks to the efforts of the local EAA chapter for making this happen.

Regina Flying Club Open House

Even with unusually cool weather and low ceilings the Regina Flying Club Open House was a success. This annual event is an opportunity for the public to visit with us 'general aviation' folks and for us general aviation folks to catch up with each other and see how everyone is doing. Thank-you to all the folks who displayed their aircraft.

Staffing

As many of you know Tanys, our person responsible for maintenance, had a baby boy earlier this summer. Grayson Alexander was born June 30, 2016. Both Mom and son are doing great. It goes without saying that Dan is a very proud father.

Rylan Grubb our newest instructor joins Matt, Alexey, Jan-Theo, Mike, Jim, and Tom. This group of knowledgeable instructors can help you with any license or rating questions you may have. We are also happy to have Nathan Blackhurst joining our staff this summer.

Wings Night

This year the annual Regina Flying Club wings night was held at the Royal Regina Golf Club. This opportunity to recognize the accomplishments of our students, members, and staff was another well attended success.

Renovations

Facility upgrades at the Regina Flying Club have continued with improvements to our computer system, hangar, and aircraft. We have been very busy this year making sure our infrastructure will sustain our club for the years to come. Thanks to all who are making this happen! As we repair the north hangar wall the Regina Airport Authority is also improving the apron near our hangar. Good things are happening at the airport, come check it out.

What have our pilots accomplished!

Fly safe everyone, have fun and be professional.
Remember Ground School starts in September!

Remember! When flying cross-country take the things you need...engine tents, survival kits...you never know!!!
